MDD
A Davies Company

Angie O'Saben

Senior Manager

Angie joined MDD Forensic Accountants' in 1996 as an intern. She is now a Senior Manager at the firm's St. Louis office.

A forensic accountant with strong analytical skills, Angie focuses on quantifying economic damages for matters related to financial disputes, business interruption, extra expenses/increased costs, lost profits, physical damages, stock & contents, and fraud investigations. She also has significant catastrophe services experience through her work on losses related to the Joplin tornado, Iowa floods and hurricanes Katrina and Charley.

Angie has worked on claims that have ranged from under $1,000 to in excess of $750 million. She has utilized her expertise across various industries, including commercial rental properties, hospitals, agriculture/grain, hotels, logistic companies, retail & wholesale, aerospace manufacturers, telecommunications, manufacturing, and restaurants.

Angie has presented seminars and workshops on lost profits/business interruption and has appeared at arbitration.

She received her Bachelor of Science in Accounting degree from the University of Missouri – St. Louis.
