MDD
A Davies Company

Damien Beven

CA | Manager

Damien joined MDD Forensic Accountants' Sydney office in 2022.

He joined the firm around the time of the Eastern Australia floods – which had caused catastrophic damage to many homes and businesses – and worked with clients to quantify economic damages and help affected businesses return to operations.

With a background in commercial restructuring, turnaround and insolvency, this experience has taught Damien how to collect evidence, analyse financial transactions, identify trends and quantify damages. He has been involved in litigation support roles by drafting expert reports and attending to settlements.

Damien has worked in a variety of different industries, including retail, manufacturing, media & advertising, transportation, professional services, hospitality, and technology. These matters include companies with losses in excess of $20 million to $50 million.

Damien holds a Bachelor of Business with a double major in Accounting and Corporate Governance. He is a Chartered Accountant and a member of the Australian Restructuring Insolvency and Turnaround Association.
